

### Wheel Bearing Kits

- Now available for Street Bikes
- Restores steering and braking control due to worn or rusted wheel bearings.
- Kits includes two or more double sealed wheel bearings and two wheel hub seals.
- Honda rear wheel kits include aluminum bearing retainer when used.
- Kits are available separately for front and rear wheel. Each kit replaces both sides of the wheel.
- Front wheel ATV kits complete both wheels.

### Linkage Kits

- Restores handling and suspension control due to worn or rusted linkage components.
- Convenient kit eliminates looking up multiple part numbers.
- Complete kits contain bearings, pins, collars, and seals manufactured to OEM specifications.
- Considerable savings over OEM pricing.

**Note: Linkage kit does not contain any lower shock bearing components which are attached to the linkage arm - these components are available in the Pivot Works Shock Bearing Kits.**

### Swingarm Kits

- Restores handling and suspension control due to worn or rusted swingarm components.
- Convenient kit eliminates locking up multiple part numbers.
- Complete kits contain bearings, pins, collars, and seals manufactured to OEM specification for a perfect fit.
- Considerable savings over OEM pricing.

**FAST. EASY. COMPLETE.**

### Fork Rebuild Kits

- The only complete fork rebuild kit.
- Oil and dust seals included.
- Bushings and O-rings included.

### Fork Seal Kits

- The same high quality fork seals from the rebuild kit.
- Oil and dust seals included.

### A-Arm Kits

- Restores steering control from worn or rusted components.
- Complete kits contain bearings, pins, collars, and seals manufactured to OEM specifications for a perfect fit.
- Considerable savings over OEM pricing
- Kits are assembled to complete 1 arm and are sold either as upper or lower a-arm kits.

**Note: Yamaha kits have been upgraded with needle roller bearings for reduced friction.**

### Steering Stem Kits

- Kits include two Teflon spherical bearings (cup bearings when used), four seals and related components.
- All shock kits rebuild both ends of the shock absorber

### Shock Bearing Kits

- Exact OEM replacement kit. Seals, bearings and races (if required).
- Highest quality materials used in seals, bearings and races.
- Restores the original smooth steering response with no notchy feeling.
- Requires only one part number to order the kit.
- All shock kits rebuild both ends of the shock absorber.

### Shock Rebuild Kits

- Only complete shock rebuild kit on the market
- Includes bladder, new complete seal-head, piston ring, piston o-ring, bumper, and new shaft nut
- Restores plush shock actions

**CALL NOW 800.628.4040**

## Water Tight Wheel Collar and Bearing Kits

- Military spec hard anodized
- Improvement over OEM wheel collars, o-ring seals out water/debris from hub between collar and axle
- Resists corrosion and rust
- **Includes bearings, seals, water tight wheel collars, and extra set of o-rings**

## Shock Thrust Bearing Kit

- Eases preload adjustment
- Prevents spring binding during compression and rebound
- Sealed to prevent contamination of bearing
- Provides consistent spring action
- **Includes two thrust washers, two o-rings, and one thrust bearing**
