

BRAKES

Emgo Replacement Disc Brake Pad Sets

Emgo replacement disc brake pads meet or exceed manufacturer's specifications. Replacement pads are available in two compound types, Sintered and Full Metal. Sintered metal is a high performance brake pad material designed from a highly refined composition of metallic powder pressed into a preformed mold, more suited for street bike applications. Emgo Full Metal pads are made of additional metallic compounds for higher friction and durability, more suited for dirt bikes and ATV applications. Sold by the pair, (some models require more than one set).

Disclaimer

None of the brake pads shown or listed in this catalog were manufactured by the Original Equipment Manufacturer, nor under their supervision or control. Any model names which are trademarks of their respective manufacturer are shown in this catalog for reference purposes only. EMGO has assumed the greatest care in researching and editing this catalog. We cannot assume responsibility for any error or omissions.
