

TERAFLEX TERAFLEX

The Most Innovative, Effective MX/Cross Country Racing Tires in the World, Period!

- 150/90-18* size for hi-power - Big Bore Bikes only
- 110/90-19* & 110/100-18* sizes for strong running 250 & open class
- Super deep knobs, more bite and longer wear
- "Cantilevered" rim guard sidewall engineered to provide increased deflection & bite
- Extra thick knobs allow recutting of worn and rounded edges without losing knob stability. Maintains maximum bite for the life of the tire
- Double edge taper, wide base, self-cleaning knobs, will not clog even in gumbo mud
- "Reversed Angle" leading edge of intermediate knobs, directs side thrust towards the inside when the bike is leaning into a turn
- "Racing" tread rubber compounded for extreme traction
- Race tire construction, super-strong, light-weight racing nylon, increases deflection, lays down a huge footprint and controls rebound

*D.O.T. Certified
